The illuminated Cocktail Table “la Provençal”

The illuminated Cocktail Table “la Provençal”

The “Cristallino” glass was invented in Murano in the 1450s where since centuries the glassmakers of Venice have been creating refined and elegant works of art.

Today, ARTECASA and Stefano BALLARIN invite you to discover their “Cristallino Martellato” glass cocktail tables, each model sculpted and painted by hand in Venice meaning no two tables are ever the same. Every piece is a unique and exclusive treasure, blessed with subtle variations that highlight the meticulous work of the master glassmakers.

Our cocktail tables are incomparable works of art that will decorate any interior or exterior space, such as your Private Living Room or for example an Hotel Terrace. These cocktail tables are designed to add a touch of luxury and modernity to your space while honoring the prestigious heritage of Murano glassmaking.

Glass painting is a captivating artistic technique that allows you to tailor your cocktail table to your personal taste. There are a number of different types of paint that are specifically formulated for glass surfaces. We use special, non-fired acrylic colors designed to withstand everyday wear and tear. This paint secures your selected figurative motif in place, while the built-in light accentuates its visual impact.

We have chosen sophisticated Art Deco designs in classic Venetian style for our “Cristallino Martellato” glass cocktail tables. Inspired by Murano’s traditions, they feature floral motifs and subtle details, just perfect for a touch of luxury. Here we introduce the “La Provençale” model, which mirrors the colors and scents of the South of France.
